SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Pursuant to 37 C.F.R. §1.56 and in accordance with 37 C.F.R. §§1.97-1.98,
information relating to the above-identified application is hereby disclosed. Submission
of this statement is not to be construed as an admission that any of the documents
submitted herewith are "material" to the examination of this application or the

PATENT

patentability of the invention, as the term "material" is defined in 37 C.F.R. §1.56(b), nor as any admission that the documents submitted herewith even qualify as prior art references with respect to the above-referenced patent application.

In accordance with §1.97(b), since this Supplemental Information Disclosure Statement is being filed either within three months of the filing date of the above-identified application, within three months of the date of entry into the national stage of the above identified application as set forth in §1.491, or before the mailing date of a first Office Action on the merits of the above-identified application, no additional fee is required.

Copies of references listed on the attached Form PTO-1449 are enclosed herewith except that copies of the United States patent references listed on the attached Form PTO-1449 are not enclosed herewith pursuant to 69 FR 56542 dated Sept. 21, 2004.

Pursuant to the requirements of 37 CFR 1.98(a)(3)(i) for a concise explanation of the relevance, as it is presently understood by an individual designated in 37 CFR 1.56(c) as most knowledgeable about the content of the information of each patent, publication or other information listed that is not in the English language, applicant respectfully submits that Swiss patent 401,831 appears to disclose a pallet that may be folded from a planar member to yield an upper planar surface supported by a plurality of substantially hollow rectangular reinforcing member portions running the length of the upper planar surface and having the upper planar surface form one of four sides of the reinforcing member portions running the length of and supporting the pallet upper planar surface.
